Profile Summary

- **Software Engineer** with **2+ years of experience** in **Frontend Development** skilled in **React.js, JavaScript,** and **REST API integration**, focused on building responsive, component-driven web applications. And also led **frontend teams**.
- Developed and maintained **20+ responsive UI components** and frontend modules focused on **usability, performance,** and **API integration**.
- Experienced in planning complete **Frontend flows, UI enhancement, bug fixing, responsive design optimization,** and delivering features within **Agile sprint timelines**.
- Familiar with modern technologies including **Next.js, Node.js,** and **Tailwind CSS**, along with AI-assisted development tools such as **ChatGPT, Cursor AI,** and **GitHub Copilot**.

Experience

Software Engineer | *Capgemini*

October 2024 – Present

- Developed and maintained **20+ reusable UI components** using **React.js** for responsive and user-friendly web applications.
- Built frontend modules including **dashboards, forms,** and **management screens**, improving interface consistency and usability.
- Integrated many **REST APIs** using **Axios** for dynamic data rendering and seamless frontend-backend communication.
- Resolved **30+ UI and responsiveness issues**, optimized component structure, and collaborated with cross-functional teams in an **Agile environment**.

Freelance Frontend Developer | *Self-Employed*

July 2023 – October 2024

- Worked with multiple clients on frontend projects including **dashboards** and **single-page applications**.
- Planned the complete product and **frontend flow** for each project, from component architecture to final feature delivery.
- Built UIs using **React.js, JavaScript, HTML5, CSS3,** and **Bootstrap CSS**, with focus on responsiveness and usability.
- Handled **REST API integration** independently and maintained codebases using **Git** and **GitHub**.

Frontend Development Intern | *Progshee Technologies*

November 2022 – May 2023

- Built the complete **website** for a dating app, planning the entire product and frontend UI from scratch.
- Integrated backend APIs using **Axios**, handling data flow between frontend and server-side services.
- **Led the frontend team**, assigned tasks, reviewed work, and ensured on-time delivery of UI modules.
- Maintained codebase using **Git** and **GitHub** for version control and team-wide collaboration.

Frontend Development Intern | *Codesandbots*

January 2022 – April 2022

- Developed web pages and **responsive UI components** for an LMS-based web application using **React.js, JavaScript, HTML5,** and **CSS3**.
- Built responsive layouts and improved frontend usability across multiple screen sizes and devices.
- Assisted in **API integration, UI enhancements,** and fixing frontend issues to improve overall application performance.
- Collaborated with team members using **Git** and **GitHub** for version control and project management.

Technical Skills

Languages: JavaScript, HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS, Bootstrap
Backend (Basic): Node.js, Express.js
APIs & Auth: REST APIs, Axios, JWT Authentication
Database: MongoDB, MySQL
Tools: Git, GitHub, ChatGPT, Cursor AI, Claude AI, GitHub Copilot.

Education

Bachelor of Technology (B. Tech) | Computer Engineering
Acropolis Institute of Technology and Research | *CGPA: 8.41*

2019 – 2023
Indore, India

Projects

YadByad | React.js

GitHub: github.com/mayurbohra9/yadbyad_frontend | Live: yadbyad-frontend.vercel.app/

- A platform that connects **special needs students** with peers for academic support, with an accessible and intuitive interface.
- Planned and built the full frontend independently, covering component structure, **API integration**, and responsive layout.

Guidy | React.js

GitHub: github.com/mayurbohra9/guidy_frontend | Live: guidy-frontend-bice.vercel.app/

- An **academic tracker** for university students to manage records, events, and performance in one place.
- Designed and developed the complete UI with focus on simplicity, **clean navigation**, and cross-device compatibility.

Achievements

- Developed and optimized **20+ reusable frontend components** to improve development consistency, UI maintainability, improving overall application responsiveness and user experience.
- **Led the frontend team** at Progshee Technologies and Codesandbots, coordinated tasks, reviewed deliverables, and kept the project on track.
- Successfully delivered frontend tasks within **Agile sprint timelines** while maintaining responsive and user-friendly interfaces.
- Completed multiple frontend and freelance projects using **React.js** with focus on **responsive UI development** and **REST API integration**.
